PREPARE WITH PEDRO
DISASTER PREPAREDNESS ACTIVITY BOOK
Prepare with Pedro: Disaster Preparedness Activity Book is a publication created by the Federal Emergency Management Agency’s Individual and Community Preparedness Division and Region V office in partnership with the American Red Cross.

The Red Cross emblem and the American Red Cross name are trademarks of the American National Red Cross and protected by various national statutes. © 2018 by the Federal Emergency Management Agency. The DHS Seal and FEMA Logo are properties of the Department of Homeland Security and protected by Federal Law.

The Prepare with Pedro Activity Book is available for free from FEMA. Call 1-800-480-2520 and ask for publication number P-2005. It is also available as a free download online at www.ready.gov/youth-preparedness.
Dear Parent, Guardian, or Educator:

This activity book is designed to teach young children and their families about how to stay safe during disasters and emergencies.

Disasters can be scary for kids, but children are much better at adapting to situations when they know what to expect. Work with children through this activity book to help them understand the concepts and safety messages discussed.

The below definitions will provide a foundation for understanding the safety messages provided.

HAZARDS: Hazards are the events that may lead to emergencies and disasters. A hazard is a source of danger, like a flood.

EMERGENCY: An emergency is a time when something serious happens and immediate help is needed.

DISASTER: A disaster is an emergency that causes great harm to people or an area.

PREPARE: Prepare means to get ready. You get ready for things all the time — like when you put on a jacket and grab an umbrella to get ready for a rainy day. There are lots of things you can do to "PREPARE" for emergencies and disasters, like learning what to do if one happens, making a plan with your family, or putting supplies in an emergency kit.

SAFE PLACE: A safe place is somewhere you can go to be safe from things that could harm you. What is considered a safe place will vary depending upon the emergency or disaster.

While working through this activity book with your child, use page 11 to create a family communication plan to ensure that your family is ready for any emergency or disaster. Developing and practicing a plan are key steps to helping both adults and children remember what to do to stay safe.

Sincerely,
Your friends at the Federal Emergency Management Agency (FEMA) and the American Red Cross
Hi! I’m Pedro the Penguin, and I am traveling around the United States to visit my friends and learn how they prepare. I’d like you to come.

Emergencies and disasters can happen anywhere, but there are ways to help you stay safe. Follow along, and we can learn together!

*This map is not reflective of all hazards across the United States*
THUNDERSTORM

Thunderstorms bring lots of rain.
They also bring thunder, lightning, wind, and hail.
It’s not safe to be outside when lightning is near. If you hear thunder, then that means that lightning is close. Get indoors fast.

Remember, when thunder **ROARS**, go indoors.
TORNADO

A tornado is a spinning column of air. Tornadoes have strong winds that can cause a lot of damage to things in their paths.

A Tornado Watch means that a tornado might happen.

Listen for more information, stay close to a safe place, and get ready!

These signs may help you know that a tornado is coming:

- Dark or green colored sky
- Funnel cloud
- Loud train-like sound
- Hail
A Tornado Warning means that a tornado has been spotted in your area. In some places, you may hear tornado sirens. It's time to take cover now!

Indoors, go to the lowest level in the building. This could be a basement or first floor. Find an interior room with no windows. Get down on the ground and cover your head and neck.

Did you know? A mobile home is not a safe place to be during a tornado. If you live in a mobile home, locate your nearest sturdy building now.

Practice going to that safe place.
Before the storm, Amelia and Elijah found 3 safe places to go during a tornado. Can you circle the safe places?

Answer Key: (basement, bathroom, storm cellar)
Temperature tells you how hot or cold the air is. During winter, the air outside can get very cold.

I love the snow!

Me too! But before we go outside, we prepare by putting on warm clothes. We go inside when it starts to feel too cold.

Remember, tell an adult if you feel COLD or numb while playing outside.
Electricity is what powers the lights and makes the heat stay on at home. Sometimes, the electricity may go out. When this happens, you can use an emergency supply kit to help stay safe.

Mia and her family are showing Pedro how to make a kit to be prepared. What should they put in the kit?

Draw a line to match the name of the supply to its picture.

First Aid Kit/ Medicine
Pet Supplies
Blankets
Food
Radio
Water
Flashlight & Batteries

You can make your own emergency supply kit at home! Ask an adult to help you. Having a kit nearby can help you stay safe in many different kinds of emergencies.
FLOOD

When a lot of rain comes or a river overflows, that can bring a flood. Floods that happen very quickly are called flash floods.

Playing in flood water is not safe and could make you sick.

Moving water can sweep you off your feet fast. If you see flood water, never walk through it. Tell adults not to drive through it.

Did you know? Floods are the most common weather event in the United States.

Remember, Turn AROUND. Don’t Drown
Martin's family knows what to do when they see flood water. Do you?

Decode the secret message!

□ = N  ○ = D  △ = R  ● = O

♦ = A  ◇ = U  ▽ = W  ★ = T

Answer Key: "Turn around, don’t drown!"
Floods can happen where we live, so my family made a plan. We know where to go if a flood comes. We wrote down important information like names and phone numbers to use if something happens.

Fill out this plan together with your parent or guardian. Then talk about what to do if something happens. Your family can make a plan for any emergency or disaster.

My Family Communication Plan

Medical/Doctor Information: __________________________

Review and update this plan every year.
Always remember to call 911 in emergencies!
A hurricane is a big storm that forms over the ocean. It has a spiral shape and can travel a long way before it reaches land.

A hurricane can cause a lot of damage with strong winds and heavy rain when it hits land. The ocean water can rise with large waves that flood the coast.

Most of the time, we know when a hurricane is coming before it hits land. We stay informed, gather our supplies, and prepare our home. We may stay home or we may have to evacuate.
Sometimes it is safe to stay at home during the storm, but you must be prepared. During the storm, stay in a safe room with no windows. Bring your pets and emergency supply kit in the room with you.

Can you find the emergency supplies hidden in this picture?

Hey Pedro, let me show you what items we need for the storm!
Some areas will not be safe during a hurricane. You may be told that it is safer to leave your home and travel to a safe place. This is called **EVACUATING**.

A safe place is away from the wind and flood waters. It can be a hurricane shelter, a hotel, or even the home of a family member or friend.

If you are told to evacuate, you must do this right away. Waiting to leave can be unsafe.

---

We found a place to go. We practice how to get there every year.

Now it's Pedro's turn. Help Pedro get to safety!
EARTHQUAKE

An earthquake is when the rock under the earth's surface moves. When that happens, the ground under your feet can shake, move, or crack.

If the ground starts shaking:

- Drop where you are, onto your hands and knees
- Cover your head and neck. Crawl under a nearby sturdy table or desk if you can.
- Hold On until the shaking stops.

Did you know? Earthquakes can happen almost anywhere in the United States!
My family found these safe places to Drop, Cover, and Hold On.

Find a sturdy table near you and practice Drop, Cover, and Hold On.

If you’re outside when an earthquake happens, then stay there! Move to an open area if you can. Drop where you are, and cover your head and neck.

Now it’s our turn. Practice with me! Drop, Cover, and Hold On.
Too much sun can make you sick.

If you feel weak or dizzy, tell an adult right away. Go to a cool spot, drink some water, and lie down.

EXTREME HEAT is when it is hotter outside than normal. When it is really hot for several days or weeks, it is called a heat wave.
Can you find these words to help Elan and Yuma stay cool?

Keep COOL when it’s hot outside!
A **wildfire** is a fire that burns through forests and other wildlands. In some places, the weather may be really dry for a long period of time. A dangerous wildfire can start quickly in these conditions.

Did you know? Most wildfires are caused by humans. Always be careful when camping or cooking outside.
Sometimes wildfires come close to houses. When this happens, you may be asked to leave your home and travel to a safe place.

Remember, this is called **EVACUATING**.

Elan and Yuma’s family needs to evacuate!

Color each picture and number them in the right order to help in their evacuation.

**Answer Key:** 1. Preparing, 2. Warning, 3. Packing, 4. Evacuating
THANKS for coming along as I learned from my friends around the country!

Remember:
- Make a plan and practice with your family
- Build an emergency supply kit
- Find safe places to take shelter
Certificate of Completion
awarded to

for learning lots of ways to be prepared for emergencies and disasters.

READY WRIGLEY PREPARES FOR TORNADOES
Note to Parents, Guardians, and Teachers

The Centers for Disease Control and Prevention has created Ready Wrigley to provide parents, guardians, teachers, and young children with tips, activities, and a story to help the whole family prepare for emergencies. Together with your child, join Wrigley as she helps her family prepare for emergencies by staying informed, packing emergency kits, and making a family communication plan.

The activity book is designed to provide an interactive tool to further your child's education and promote disaster preparedness in your community. We hope you will encourage its use in your schools, communities, and families to help children learn the importance of being prepared.
Thunderstorms make loud rain, thunder, and lightning. A severe storm can also make a tornado.

A tornado is a powerful, spinning, funnel-shaped cloud that goes from the sky to the ground. A tornado is very dangerous. It has strong winds that can destroy things in its path.
Tornadoes can happen day or night, with little or no time for a warning. These weather signs may help you know a tornado is coming.

**LARGE, DARK, LOW-LYING CLOUDS**

**HAIL**

**FUNNEL CLOUD**

**DARK OR GREEN-COLORED SKY**

**LOUD ROAR THAT SOUNDS LIKE A FREIGHT TRAIN**

If you notice any of these signs, find an adult or take shelter right away!
Tornadoes can happen at any time of year, so it is a good idea to get ready now! Do you know what to do?

READY WRIGLEY TO THE RESCUE!
A storm or tornado can happen when you are not with your family. Wrigley and her family talk about what to do and who to call in an emergency.

**Fill out a plan with your family to have in an emergency.**

**MY FAMILY COMMUNICATION PLAN**

- **My Name:**

- **My Address:**

- **My Telephone Number:**

- **Meeting Place:**

**Family Information**

- **Work Number:**

- **Cell Number:**

- **Email:**

- **Neighbor/Relative name and number:**

- **Out of town contact name and number:**

*Always remember to dial 911 in emergencies.*
Wrigley and her family make sure their emergency kit is ready. An emergency kit keeps everything you might need in an emergency in one place.

- Bandage
- Batteries
- Cell phone
- Flashlight
- Food
- Medicine
- Pet Food
- Radio
- Sleeping bag
- Water

Make sure you have enough food, water, and supplies in your kit to last at least 3 days.
EMERGENCY KIT SEARCH

Some families might need extra items for special needs. Don’t forget to include these items in your emergency kit.

Help Wrigley find the extra emergency kit items by circling the words below. The words can be across, down, or even diagonal.

A E L N A D P W C J D Z L
Z T O K Q I L S E O P D L
D G X T D A E D C S I U W
F J Y O U P I M I A T G A
K P G X J E J N G C S L L
T Z E R D R A N S E O F K
F V N H T S I O S U Q P E
F K P Y S R Q S B K L H R
R E Y R A U A T O J K I M
Z W H E E L C H A I R E N
Z L H N G N A I Q J L N I
M E D I C A T I O N F D N

DIAPERS HEARING AID MEDICATION WALKER
GLASSES INSULIN OXYGEN WHEELCHAIR

If a family member needs special care, make a list of doctors’ names and numbers, and medications and their dosages.
Wrigley and her family practice taking shelter from a tornado. The safest spot is in the middle of the basement. If you don’t have a basement, stay on the lowest floor in the house in an inside room with no windows. Don’t forget to grab your phones and take your pets to your safe spot!

Color the safe spots for Wrigley’s family to take shelter. A safe spot may be a bathroom, closet, or even a hallway.
When you are at school, make sure to practice taking shelter when your school has a tornado drill. Listen to your teacher for instructions. Crouch low, with your head down, and protect your head and body.
Thunderstorms are in the area. Wrigley and her family turn on the radio and TV, and check their smart phones, to get weather updates. They listen for announcements about a **tornado watch** or **tornado warning**.

A **tornado watch** means tornadoes are possible in your area.

**BE READY TO TAKE SHELTER!**

A **tornado warning** means a tornado is on the ground or seen by radar.

**TAKE SHELTER NOW!**
Wrigley hears sirens going off in her neighborhood! Sirens let people know a tornado is coming and warn people to take shelter.

If sirens are often tested in your area, use the tests to practice sheltering with your family.
When Wrigley's family hears the siren or a tornado warning on the radio, TV, or smartphone, they take shelter right away. Wrigley and her family go to their safe spot, get under something sturdy, and protect their bodies from falling objects.
A mobile home, trailer, or car is not a safe place to be in a tornado. If there is a tornado warning, quickly find a sturdy building or storm shelter and take cover!

Color the safest places to take shelter in a tornado.

Never try to outrun a tornado, but do find the nearest safe place to take shelter.
Tornadoes and severe storms can be very scary. The best thing you can do is plan for and practice what you will do if a tornado strikes.

Decode the secret message to learn how to prepare for a tornado.

AFTER A TORNADO

After a tornado, Wrigley's house and neighborhood may look very different. There may be power lines that are down, nails, broken glass, and tree limbs on the ground. Wrigley should wait until adults say it is safe to go home.

Color the items that need to be cleaned up, thrown away, or fixed.
GREAT JOB!

(Your Name)

is ready for tornadoes!

Before a severe storm, remember to:

- Fill out your emergency communication plan
- Find your safe spots to take shelter
- Check your emergency kit and make sure you have everything you need
- Listen to the radio or TV for information
- Keep your pets safe!

Here are some things I learned:

Emergency Medical Services for Children National Resource Center,
Children's National Health System
Hello, Educator!

Welcome to the Let's Get Ready Educator Guide.

Away from home, you are one of the special grown-ups with whom children feel most comfortable. This gives you a unique opportunity to help them learn about emergencies in a calm and reassuring environment.

This guide, with activities that can complement emergency plans and school safety drills, will help you prepare your children for emergencies. It also gives you tools to connect with parents and caregivers. The Sesame Street friends are here to help children remember important information through songs, drawings, and play!

For More Information

In addition to this Educator Guide, we are pleased to provide other resources to help families and communities prepare for emergencies. Please visit sesamstreet.com/ready or pseg.com/sesamstreet.

- Let's Get Ready Family Guide: A resource filled with simple tips, ideas, and activities to help families prepare for emergencies.
- Let's Get Ready Community Event Host Guide: Emergency preparedness information and activities for community providers to share with children and families.

WHAT'S INSIDE: In this guide, you'll find simple ways to help children learn these important messages:

- We Can Get Ready!
- I Know Our First and Last Names
- I Know Our Phone Number and Address
- Helpers Keep Me Safe and Sound
- Let's Make and Share Our Plan
- Let's Pack an Emergency Kit

Come along, and let's get ready together!
We Can Get Ready!

You can introduce emergencies using familiar examples from children's everyday lives. For instance, there are signs and sounds all around us to keep them safe or to tell them that there is an emergency. Here is a simple activity to start the conversation.

What to do:

» Gather children and ask, "What do you do to stay safe when you're in the car? How about when you are walking across the street? Riding your scooter?" They may talk about seat belts, helmets, or holding hands with a grown-up when they cross the street.

» Explain that there are signs and sounds all around us to keep us safe, too. Hold up the pictures below, and ask them if they can identify what they are. **Follow up with a discussion about why we have some of these signs and sounds:**

---

**EXIT**

**EXIT SIGN:** This sign tells us the way to get out. Just in case we have to get out fast, we can look for this sign. **Where do you see an EXIT sign?**

**SMOKE ALARM:** This is a smoke alarm. If there's a fire, it will make a loud **BEEP, BEEP, BEEP!** That means we have to get outside fast and stay outside. **Where do you see a smoke alarm?**

**FIRE TRUCK WITH FLASHING LIGHTS:** A fire truck has a loud siren and bright flashing lights. This tells us that help is on the way! **What are some other cars with sirens and bright lights?**

**AMBULANCE:** The helpers in an ambulance take care of people if they get hurt. **What are some other cars and trucks that tell us help is on the way?**

---

**KEEP PRACTICING!**

Play "Emergency Detectives": As children walk from one place to another, ask them to be on the lookout for smoke alarms and EXIT signs.
I Know Our First and Last Names

Children feel proud when they learn about themselves! Knowing their own and their caregivers' whole names is also a very important way to prepare for emergencies.

Directions: Use this sheet to help children learn and repeat important information. They may need your help writing in the blanks.

My Family Picture
Draw a picture of your family in the box below.

What Are the Whole Names of Everyone in Your Family?

<table>

I Know Our Phone Number and Address

Children feel proud when they learn about themselves! Knowing basic information like their caregivers’ phone numbers and addresses can also help children if they ever get separated from their caregivers.

Directions: Use this sheet to help children learn and repeat important information. They may need your help writing in the blanks.

My Important Phone Numbers

Write your family’s important phone numbers on the lines below.

MY MOMMY/DADDY’S PHONE NUMBER

MY MOMMY/DADDY’S PHONE NUMBER

OTHER IMPORTANT ADULT’S PHONE NUMBER

OTHER IMPORTANT ADULT’S PHONE NUMBER

My Home Address

MY ADDRESS

Now Practice Dialing

Use your finger to practice pressing the numbers.

EVERYDAY TIP: Explain that 9-1-1 is a special number to call when help is needed during an emergency and there is no other person to help. Pretend by asking questions such as “9-1-1, what’s your emergency?” and “What’s your address?”

 Helpers Keep Me Safe and Sound

Our neighborhoods are filled with special helpers who keep us safe: crossing guards, police officers, doctors, and teachers like you. The more familiar they are with these helpers now, the more comfortable they'll feel with them in case of an emergency.

Directions: Here's a simple book children can make to get to know their neighborhood helpers. They can color in the pictures while you help cut and staple the pages together.

My Book About Neighborhood Helpers
There are helpers all around to keep me safe and sound!

I'm a firefighter. I help put out fires.

I'm a teacher. I help children stay safe as they learn and play at school.

Draw a picture of another helpful person in your neighborhood.

I'm a
I help

Let's Get Ready
PLANNING TOGETHER FOR EMERGENCIES

Let's Make and Share Our Plan

HELLO, FAMILIES!
Our class is participating in an exciting Sesame Street program to prepare for emergencies.
Join us to get ready together!

Here are some of the things your child has been learning at school:

» I know our first and last names (whole names of both child and parents).
» I know our phone number and address.
» Helpers all around keep me safe and sound.

Please continue the learning at home by creating a Family Emergency Plan! Use these pages to talk with your family about what you will do and whom to contact if an emergency ever happens. To help children remember the plan, practice this information together at home.

FAMILY PHOTOS:
Adding photos for every family member and your pet can be helpful if you get separated during the emergency.

The Family's Emergency Plan
You can copy this page more than once to include all household members.

Let's Get Ready Educator Guide: page 7
Let's Make and Share Our Plan (continued)

Please make copies of your plan and share it with your child's teacher, along with the other important grown-ups who help care for your child.

Emergency Contacts
Help your children learn who these contacts are, and remind them that these are people who may be there to help and care for them just in case.

1. Out-of-Town Emergency Contact who may not be affected by the emergency and can help make sure you're all okay. It is often easier to call long distance than to make local calls after an emergency. You can also text:

WHOLE NAME
ADDRESS
ADDRESS
E-MAIL
HOME/CELL PHONE
WORK PHONE

2. Local Emergency Contact who can help you with tasks such as picking up your child from child care:

WHOLE NAME
ADDRESS
ADDRESS
E-MAIL
HOME/CELL PHONE
WORK PHONE

Emergency Meeting Place
This is the safe, child-friendly place where your family will meet if you can't get home during an emergency:

NAME OF LOCATION
TYPE OF ESTABLISHMENT
ADDRESS
PHONE NUMBER

Neighborhood Helpers
Include phone numbers for the people in your neighborhood who can help you during an emergency:

POLICE STATION
FIRE STATION
FAMILY DOCTOR/S
OTHER IMPORTANT ADULT

LOCAL EMERGENCIES:
Learn about specific risks and potential emergencies in your area by signing up for local weather emergency alerts on your smartphone.
Let's Make and Share Our Plan (continued)

A SAFE HOME:
Make sure your surroundings are ready for an emergency, too! Call your utility provider if you notice wiring problems in your area.
Let's Pack an Emergency Kit

Create a family emergency kit. Use this checklist to think about what you might need in case of an emergency. As you add items to your kit, check them off the list. Remember to review your kit's contents regularly (for instance, when you check your smoke alarms) to make sure items are up to date.

Recommended Items:

- 2 COPIES OF YOUR FAMILY EMERGENCY PLAN
- $20 MINIMUM CASH AND COINS
- EXTRA COPIES OF FAMILY HEALTH RECORDS, LIST OF PRESCRIPTIONS WITH DOSAGES, AND INSURANCE PAPERS
- FIRST-AID KIT AND PRESCRIPTION MEDICATIONS
- 3-DAY SUPPLY OF WATER (1 GALLON OF WATER PER PERSON PER DAY)
- 3-DAY SUPPLY OF CANNED AND DRY FOOD, AND A MANUAL CAN OPENER
- BATTERY-POWERED OR HAND-CRANKED RADIO
- MOBILE PHONE AND CHARGERS FOR CAR AND HOME
- FLASHLIGHT AND EXTRA BATTERIES
- TOOLS (WRENCH OR PLIERS) TO TURN OFF UTILITIES
- ITEMS FOR THE ELDERLY OR SPECIAL-NEEDS FAMILY MEMBERS
- PET SUPPLIES
- SPARE SET OF CAR AND HOUSE KEYS
- BLANKETS OR SLEEPING BAGS
- PAPER CUPS AND PLATES, AND PLASTIC UTENSILS
- PLASTIC TRASH BAGS
- MOIST TOWELETTES AND OTHER HYGIENE SUPPLIES
- CHANGE OF CLOTHING, RAIN GEAR, AND STURDY SHOES FOR EACH FAMILY MEMBER
- SUNSCREEN AND INSECT REPELLENT

Important Items for Children:

- 1 COMFORT ITEM PER CHILD (A TEDDY BEAR OR OTHER TOY)
  Ask what your child would like to include, such as a doll that's not often used.
- ITEMS FOR CHILDREN (PAPER, CRAYONS, BOOKS, AND TRAVEL-SIZE GAMES)
- SMALL TOYS, NONPERISHABLE SNACKS, AND DIAPERS FOR INFANTS OR TODDLERS

AND REMEMBER...

» Keep your kit handy.
» Keep items in airtight plastic bags.
» Refill your kit with fresh water, batteries, and right-size clothes every 6 months.
» Don't forget to keep emergency supplies in your car and at work!
Let's Get Ready Certificate

Congratulations!

CHILD'S NAME

has prepared for emergencies!

My mommy's phone number is... (212) 555-1234

My whole name is... Rosita de las Cuevas!

Let's pack an emergency kit!

My address is... 1, 2, 3 Sesame Street.
