OregonASK, in partnership with the State Library of Oregon and Oregon Center for Career Development, is pleased to offer a **FREE** training on Leap into Science Balance-themed Workshops. Leap into Science is a nationwide program from The Franklin Institute Science Museum that integrates open-ended science activities with children's books, designed for **children ages 3-10 and their families**. It is designed to bring high quality STEM and literacy resources to community settings to engage families in accessible & familiar settings.

Trainings will be in Room 122
Rogue Community College,
Table Rock Campus
7800 Pacific Avenue
White City, OR 97503

Programs will be expected to provide a total of three workshops, two for kids and one for families. You may call 541-776-6766 with any questions.

All educators who attend training will receive:

- Access to high-quality science & literacy curriculum
- A kit of materials valued at \$300
- Access to the Leap into Science online resources
- Ongoing support and participation in Leap into Science National Network
