

Summer LEARNING SURVEY

This survey is designed for community organizations, agencies, schools, or any other entity that is offering camps, classes, or child care this summer. If you'll be having fun with children and youth this summer, this survey is for you!

Complete the survey to earn a **FREE** registration to OregonASK's Fall conference

How to Take the Survey

- Survey questions are most appropriate for program directors, multi-site coordinators, or site coordinators
- Set aside about 15 minutes to complete the survey
- Make sure you have site location information, planned dates and hours of operation, and anticipated enrollment information handy
- Visit <https://www.surveymonkey.com/r/ORSummer21> to fill out the survey
- Upon submitting a complete response, receive a voucher for a FREE registration to OregonASK's fall conference! (limit one per organization)

About the Survey

With funding support from the National Conference of State Legislatures, OregonASK is conducting a summer survey to collect data on Oregon's summer programs. Our goal is to assess which organizations currently offer summer opportunities, what those opportunities are, and where those opportunities are located. Ultimately, we plan to map the data and make our findings available to the legislature and the Governor's office.

Good quality data on summer learning is more important than ever. This year, Oregon's schools, camps, and community organizations will offer the most extensive summer learning opportunities we have ever seen in our state, prompted in large part by the Governor's \$250 million Summer Learning and Child Care Funding Package. We believe it is imperative that we understand where our state's summer programs are and, more importantly, who has access to them.

We hope that you will join us in our effort to map the landscape of summer learning in Oregon.
